- E**thics - integrity, honesty, respect, trust

OUR HISTORY

The GOSCOR group was established in 1984 by the late Mr.G.O.Siddle. His vision being to offer to the Southern African market proven and reliable brand names sourced from well established manufacturers. The initial focus being on material handling equipment. Having identified the fact that sophisticated battery operated material handling equipment needed to operate in a clean environment, the Tennant brand was acquired and included in the Goscor product stable. Within a short period of time the Tennant brand was able to stand on it's own and commenced operating as a division of the Goscor group. Additional brands were soon included namely Elgin street sweepers, Guzzler vacuum tankers, Vactor jetting machines, Delfin industrial vaccums, Maer pressure washers, Lindhaus vaccums and more recently, Byotrol being a state of the art anti microbial disinfectant.

In 1998 Tennant USA purchased Sorma International with Goscor following suit through the purchase of Sorma South Africa. Sorma S.A. being a commercial cleaning equipment supply company. In 1999 the Tennant business was then transferred from Goscor to Sorma to establish a company that was able to offer a comprehensive cleaning equipment product range. In the latter part of 2008, to increase brand awareness, the Sorma name change to GOSCOR CLEANING EQUIPMENT (PTY) LTD. This change was implemented to bring the various business units within the Goscor Group together under one umbrella to increase the Goscor brand awareness. In July 2010 the majority share of the Goscor Group was sold to AMH being a subsidiary business within the well established Imperial Group.

OUR OFFER

GOSCOR CLEANING EQUIPMENT (PTY) LTD. (G.C.E.) offers a full range of commercial and industrial cleaning equipment solutions. These solutions include INTEGRATED ENVIRONMENTALLY GREEN CLEANING SYSTEMS in most of the cleaning equipment we offer. Award winning eCH20 technology for scrubbing machines, filtered vacuum dust control sweepers, PM10 road sweepers and SABS approved bio-degradable chemicals to improve our customers sustainability requirements.

We at GCE attribute our success to offering a total cleaning solution through the use of quality equipment, flexible sales options and a premium after sales service. Understanding application requirements and compiling in-house or out sourced cleaning programs to suit our customers needs is our key success. Our head office is based in Sunnyrock, number 2 Makro Place, Edenvale and we have branches in Durban, Cape Town and Port Elizabeth. We are able to offer further coverage through a capable network of distributors reaching as far as the Democratic Republic of Congo.

OUR BRAND STABLE

Tennant is a world-leading manufacturer of indoor and outdoor environmental cleaning solutions. Tennant's industrial and commercial sweepers, scrubbers, carpet cleaning equipment, vacuums, floor machines, burnishers and more deliver award-winning environmental cleaning solutions.

Elgin sweepers have been cleaning roadways since 1914. For over 90 years Elgin products have delivered superior performance. Today, Elgin sweepers are used around the world and backed by the industry's most respected dealers, who provide quality sales, service and parts support.

Today as part of Federal Signal Corporation, Guzzler is the world's leader in industrial vacuum loaders that efficiently clean up industrial waste or recover and recycle valuable raw materials. The philosophy remains the same — to serve the needs of industrial contractors and the plants they serve.

For over 45 years, Vactor has been the leader in building sewer cleaners with technological innovation and custom configurable design. Vactor Manufacturing continues to be respected as an innovative designer and manufacturer of products using pneumatics. Nearly 10,000 units have been sold worldwide, far more than any other sewer cleaner manufacturers.

Ghibli is one of the leading manufacturers of wet / dry industrial vacuum cleaners.

Delfin offers expertise in manufacturing industrial vacuum cleaners and suction units. Developing a range of products suitable for solving material cleaning and recycling problems in all areas of use, with targeted and personalised proposals able to cater for individual customer requirements.

Maer is an Italian manufacturer of professional high pressure cleaners and have been providing quality products to the cleaning industry for the past 30 years.

Byotrol is a ground breaking antimicrobial technology that has a multitude of potential applications. Byotrol technology combines commonly used biocides (QAC – Disinfectants) in a unique way that delivers substantial benefits that no other known product can deliver. Unlike many antimicrobial technologies, Byotrol continues to work even after the surface is dry.

Manufacture of world class vacuum cleaners and upright scrubbers

3M provides a range of floor cleaning accessories to use in conjunction with your floor machine to achieve the right results.

THE ENVIRONMENT IS OUR RESPONSIBILITY TO MAINTAIN!

COMPANY OVERVIEW

SALES

To ensure that the equipment selection suits the application ,we offer a comprehensive sales program including site surveys, recommendations, equipment demonstrations and cleaning program recommendations. Our sales personnel complete comprehensive sales and marketing courses supplied and adjudicated by our principal suppliers. This includes understanding equipment features , functions and applications.

SERVICE

Various service options are available and may be tailored to suit the customers requirement and budget. From outsourcing the complete service and maintenance requirement to a simple service program. By ensuring the equipment purchased offers the serviceability expected ,we retain lasting business relationships with our clients. We offer 24 /7 service with well trained service personnel on a national basis from our fully equipped workshops in Johannesburg, Durban, Cape Town, Port Elizabeth and dealer network.

PARTS

We carry a comprehensive range of parts to ensure a reasonable turn around time in the event of a breakdown. Should we not have a specific part in stock we will offer suitable replacement rental machine to ensure productivity levels are maintained. We are able to freight parts from our suppliers within 5 to 7 days where not available off the shelf. We do, however, pride ourselves in being able to offer an 78% parts availability. Our main stock holding is based in Johannesburg with sufficient insurance stock in the branches. The branches are linked to a national network and are able to secure parts daily from the national supply.

RENTALS

At G.C.E. we have a selection of sweepers and scrubbers in our short term rental fleet. These units are available on a daily , weekly, monthly or annual hire basis.

TRAINING & PRODUCT SUPPORT

Machine operator training is offered prior to or at the time of delivery / installation by certified training personnel. This comprehensive training offers all instructions required to operate the equipment and an understanding of cleaning results. We also offer a course on floor identification, basic cleaning methods and equipment care for managers.

ADMINISTRATION

Through our national computer network we are able to track equipment performance and manage required administrative functions.
